Ava Vaske

I can make the world a better plac for everyone by tellin people God will love you if you litter. I will pick up litter I will tell people smoking is bad for you and the air. The garbage could get in the water and kill the animals, so I'll go in the water and pick up the garbage and if it is supp to be recycled then I'll recycle it. If it is then I throw it away. I'll grab all my friends and family and make everyday Earth Day so it will look exactly how God made it. I will tell people we could change the world. I can clean the beach, farm city and the whole world. And so can you! I will join friends for change. I will give the poor clothes, moneu, food

water and love. What ever they need, I will give them.
